~~~~~

Well boys and girls, we have almost caught up on newsletters. And they said it couldn't be done!

So, now, it is November. We have had our first snow falls and because the first were "wet" snows the trees are laden with snow creating a Currier and Ives picture. So far this season, we have more snow than we had in total for all of last year. Most of our winter snow has very little moisture making it difficult to make a snow ball or to build a snowman. It is usually only the spring snows that have enough water to help raise the levels of the lakes.

So, thinking of next summer now is the time to make your reservations. We know that summer seems a long time away from now, but because of the Forest Service's lottery system, time is short. Reservations must be

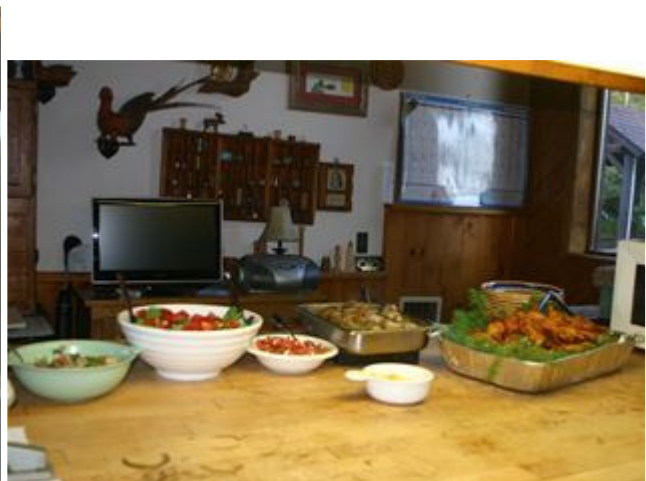

made before January 15th in order to be able to submit applications to the lottery system for day use motor permits for the entire season. Yes, it is a horrible system, and many of you do not know at this point in time if or when you will be able to have a vacation. But if you were to take an educated guess as to when you might be able to take time off, we can work with you. In the mean time, try to remember last summer.

There were the fish that were caught, and enjoyed for a shore lunch.

Then there was our Fourth of July party at the lake featuring some 80 guests and friends with our three chefs in charge-from left to right-Paul on corn, and AJ and Willy on the grill for hot dogs and hamburgers.

There were also parties at the house and in the cabins with plenty of fish being fried and salads and other food to round out the meal.

We hope to hear from you soon.
